1. RESOURCE & MINING REGION

A region built around extracting and moving valuable natural resources

Deep beneath this region are valuable raw minerals that can be **LOCATED**, **EXTRACTED** and **PROCESSED**.

Large sites operate machinery to **MINE** these resources before they are **LOADED**, **STORED** and **TRANSPORTED** using **TRUCKS**, **TRAINS**, **CRANES** and **SHIPS**.

Multiple businesses coordinate the site's **OPERATIONS**, **SAFETY**, **MAINTENANCE**, **FINANCES** and **MANAGEMENT**.

The resources must eventually be **SOLD** and transported to businesses in Australia and overseas.

A large workforce is needed to keep this entire system operating.

YOUR CHALLENGE

What types of work and jobs would be needed for this location to operate successfully? Identify as many as your group can.

2. MANUFACTURING REGION

A region centred around making products on a large scale

This region contains large facilities where raw materials and components are **DESIGNED**, **ASSEMBLED**, **PROCESSED** and **TRANSFORMED** into finished products.

Complex **MACHINERY** and **TECHNOLOGY** must operate throughout the day and be regularly **MAINTAINED** and **REPAIRED**.

Materials arrive from suppliers and finished products must be **TESTED**, **PACKAGED**, **STORED** and **TRANSPORTED** to customers.

Businesses must also manage **SAFETY**, **QUALITY**, **FINANCES**, **SALES**, **STAFF** and **OPERATIONS**.

Many different forms of work are therefore required before a single finished product reaches a customer.

YOUR CHALLENGE

What types of work and jobs would be needed for this location to operate successfully? Identify as many as your group can.

3. TROPICAL TOURISM RESORT

A coastal destination centred around visitors, recreation and tourism

Thousands of visitors travel to this destination each year to **STAY**, **EAT**, **RELAX**, **SHOP** and participate in **ACTIVITIES**.

Visitors need accommodation to be **BOOKED**, rooms to be **PREPARED**, food to be **COOKED** and facilities to be **CLEANED** and **MAINTAINED**.

The area also offers **TOURS**, **RECREATION**, **TRANSPORT**, **ENTERTAINMENT** and **RETAIL**.

Behind the scenes, businesses coordinate **SAFETY**, **MARKETING**, **FINANCES**, **SUPPLIES**, **CUSTOMER SERVICE** and **MANAGEMENT**.

The experience of every visitor depends on many different people performing different forms of work.

YOUR CHALLENGE

What types of work and jobs would be needed for this location to operate successfully? Identify as many as your group can.

4. RESIDENTIAL COMMUNITY

A growing area designed primarily for people to live

Thousands of people **LIVE** in this growing community in houses, apartments and other forms of accommodation.

Residents need access to **FOOD**, **EDUCATION**, **HEALTHCARE**, **CHILDCARE**, **TRANSPORT**, **SHOPPING** and **RECREATION**.

Homes and community infrastructure must be **DESIGNED**, **BUILT**, **SOLD**, **MAINTAINED** and **REPAIRED**.

As the population grows, businesses must provide more **GOODS** and **SERVICES**, while public facilities and infrastructure must continue to operate.

Think about all of the work required to support someone's everyday life from the moment they wake up until they go to sleep.

YOUR CHALLENGE

What types of work and jobs would be needed for this location to operate successfully? Identify as many as your group can.

5. AGRICULTURAL REGION

A rural region centred around producing food and agricultural products

Large areas of land in this region are used to **GROW CROPS** and **RAISE ANIMALS** that eventually supply consumers and other businesses.

Land, animals and crops must be **MONITORED**, **PROTECTED** and **MAINTAINED**, while specialised **MACHINERY** and **EQUIPMENT** are used throughout production.

Once products are ready, they may need to be **HARVESTED**, **PROCESSED**, **PACKAGED**, **STORED** and **TRANSPORTED**.

Businesses must also manage **WEATHER RISKS**, **ANIMAL HEALTH**, **FINANCES**, **SAFETY**, **SALES** and **SUPPLY**.

Producing food requires far more work than simply growing a crop or raising an animal.

YOUR CHALLENGE

What types of work and jobs would be needed for this location to operate successfully? Identify as many as your group can.

6. TRANSPORT & LOGISTICS PORT

A major hub connecting goods, businesses and transport networks

Every day, large quantities of goods arrive at and leave this busy transport hub.

Cargo must be **RECEIVED**, **UNLOADED**, **INSPECTED**, **STORED**, **TRACKED** and **RELOADED** before continuing to its destination.

The port connects **SHIPS**, **TRAINS**, **TRUCKS**, **WAREHOUSES** and other transport networks.

Large equipment must be **OPERATED**, **MAINTAINED** and **REPAIRED**, while the movement of thousands of items must be carefully **PLANNED** and **COORDINATED**.

Businesses also oversee **SAFETY**, **SECURITY**, **FINANCES**, **CUSTOMS** and **MANAGEMENT**.

A disruption in one part of this network can affect businesses and workers far beyond the port itself.

YOUR CHALLENGE

What types of work and jobs would be needed for this location to operate successfully? Identify as many as your group can.
